

What happens next?

The Leeds Tenants' Federation is organising visits for the members of the Beeches and Oaktrees Resident Association to Preston, Walsall and Birmingham where residents have made a real difference by taking control in their communities. These visits will help inform what option is most suitable for this area.

In the meantime, Open Communities will deliver a questionnaire to every resident during May asking about your concerns and opinions. Your responses will help inform what option is most suitable for this area.

Open Communities will also be organising a membership drive to involve as many of you as possible in the work of the Beeches and Oaktrees Resident Association and therefore in what happens in the future.

Beeches & Oaktrees RA

issue 1 -
May 2009

Residents' choice in the Beeches & Oaktrees area

The Beeches and Oaktrees Resident Association has secured funding from the Government to explore the options for improving the management of your homes and neighbourhood.

This funding is called Tenant Empowerment Grant and will help to:

- Look in detail at what choices are open to you?
- Find out how services are provided and how to improve them
- Decide the best route forward
- Give everyone living locally a chance to have their say
- Put together an action plan for the future

Appointment of Open Communities

OPEN communities
a better way of working 

The Beeches and Oaktrees Residents Association has chosen Open Communities to assist them in this important work.

Open Communities is an independent, approved, national training and advisory service for housing and regeneration. Over the coming months Open Communities will be working hard to listen carefully to all your concerns and views and to help develop a solution that allows you to have a real say over the future of your community.

If you have any questions about the role of Open Communities or the project please call us on FREEPHONE 0800 073 1051.
